There are some people who I would like to recognize at this time. They are the annual staff, for what work they did, the entire faculty for all of their patience and understanding, our sponsors who gave me all the support and advice I needed, and last, but certainly not least, the students of Rye Cove, for without them there would not be a 1984 Cove.

I have put much time and hard work into the 1984 Cove. I hope it means as much to you as it does to me.
